

Diagnosis	Does Not Need Follow Up Appointment	Needs Follow Up Appointment	When to Follow Up	Misc Information
Laparoscopic Appendectomy (simple)	X		N/A	
Laparoscopic Pyloromyotomy	X		N/A	
Laparoscopic Inguinal Hernia Repair	X		N/A	
Open Inguinal Hernia Repair	X		N/A	
Epigastric Hernia Repair	X		N/A	
Umbilical Hernia Repair	X		N/A	
Circumcision	X		N/A	
Excisional biopsy of lumps/bumps	X		N/A	phone call for path f/u
Intussusception (non-operative)	X		N/A	PCP f/u OK
Pneumothorax (without chest tube)	X		N/A	PCP f/u OK
Pnuemothorax (with chest tube only)	X		N/A	Except if suture left in place
Foreign Body Ingestion	X		N/A	Unless complicated
Laparoscopic Appendectomy (gangrenous)		X	2-3 weeks	
Laparoscopic Appendectomy (Perforated)		X	2-3 weeks	
Open Appendectomy		X	2-3 weeks	
Open Pyloromyotomy		X	2-3 weeks	
Laparoscopic Cholecystectomy		X	2-3 weeks	
Open Cholecystectomy		X	2-3 weeks	
Laparoscopic Splenectomy		X	2-3 weeks	
Open Splenectomy		X	2-3 weeks	
Pilonidal Abscess (with vessel loop)		X	5-7 days	Vessel loop removal
Pilonidal Abscess (with packing)		X	1 week	
Pilonidal Cyst Excision		X	2-3 weeks	
Incision and Drainage (other locations, with vessel loop)		X	5-7 days	Vessel loop removal
Laparoscopic Gastrostomy Tube Placement (initial encounter after surgery)		X	2 months	
Open Gastrostomy Tube Placement (initial encounter after surgery)		X	2 months	
Orchipexy (open or laparoscopic)		X	2-3 weeks	

Intussusception (laparoscopic reduction)		X	2-3 weeks	
Intussusception (open reduction)		X	2-3 weeks	
Intussusception (bowel resection)		X	2-3 weeks	
Pneumothorax (Vats, pleurodesis, chest tube)		X	2-3 weeks	
NUSS Procedure		X	2-3 weeks	
Lung Resection		X	2-3 weeks	
Ladd's Procedure		X	2-3 weeks	
Laparoscopic Ileocectomy		X	2-3 weeks	
PSARP		X	2 weeks	2 weeks to start dilations
